

Course schedules

In the pages below you can see the schedule of courses for the spring semester of the 18/19 academic year.

The title of courses are abbreviated in the schedule; below you can see how. The courses listed in the table below are those available to exchange students. The course schedule includes some course titles that not included in the table below; this means that these courses cannot be selected by exchange students.

When applying for courses, make sure your classes do not overlap because attendance to nearly all courses is mandatory. You are typically allowed to only miss a few classes per course per semester – details for each course are in the course descriptions.

Some course are scheduled in an irregular way. For instance, courses taught by visiting professors are typically compressed and therefore scheduled in an irregular way. In the list below such courses indicated with an asterisk *. Make sure to carefully check their schedule before selecting them. Also, not all course last the full semester, so you have to check when a course starts and ends.

Not included in this schedule are the dates of exams and tests of many courses, that take place in the two weeks after the regular classes and, so the period June 13 - 28 (2019).

How to find courses in the schedule?

To find a course in the calendar (starting on page 4), type the abbreviation of the course in the search function of your pdf-reader, you will then quickly be shown all classes of a given course.

Overview of abbreviations of courses in the schedule

courses in **green** are primarily for students in the **bachelor** phase, courses in **blue** for those in the **master** phase, though mixing is possible as long as course prerequisites are met. Course indicated with an **asterisk * have an irregular schedule**, make sure to pay attention.
